

I support Sinclair Broadcasting Group's plan to air the "Stolen Honor.." film. I believe this to be a counterpoint to the highly biased media groups (CBS, ABC, CNN) and their anti conservative air play. So many times I've heard the screamers of liberal ideals tell people "if you don't like what is being played on a particular station, whether television or radio, can just turn the dial to another".

If it's good for one group then they can also do the very same thing.

I fully support the FCC's hands off stance to this issue.
